FRIDAY EVENING, JULY 29, 1904.

The Robber Crab. In Central America there lives the robber crab, of almost incredible size and somewhat resembling a huge spider. The distance between its extended claws is sometimes as great as twelve feet. It spends the greater part of its life on land and climbs the cocoaor its life on land and climbs the cocon-nut trees, on the fruit of which it lives almost entirely. It digs in the ground deep tunnels and lines them with co-

When engaged the robber crab can break a man's limb with its powerful claws. Animals approaching it too closely often receive an ugly pinch which they do not soon forget, and it is on record that one of these crabs has captured and tried to drag off a goat.

To open a cocoanut the robber crab removes the bark from the end containing the three eyes, one only of which is easily penetrated, and, having found this, it revolves the nut against the point of one of its spindle legs until the opening is large enough for it to insert its great claw. With this it breaks the shell, grinds the contents into small pieces and carries them to its mouth.

Morality Versus Intellectuality. 'As a man grows older he perceives that the moral qualities are worth a good deal more in friendship than the intellectual qualities and that no bril-ilancy of mind, no charm of conversa-tion, can make up for lack of loyalty, charity and generosity in social inter-course. Young men of brains are dis-posed to value mainly mental power in other people, and it is a human quality to forgive much in men and women of genius. This is a false appreciation of the respective values of mentality and the moral qualities. The time comes when a man learns that Paid In, \$130,000. unselfishness and affection are better in wife or friend than intellectual power accompanied by intense self love. Fortunate the man who does not come to this knowledge too late.-San Fran-

The Foam on Soda Water. Foam is a natural product, being caused by the escape of air or gas from a viscid liquid. In the case of soda water it is the escape of the carbonic acid gas from the sweetened beverage that causes the attractive sparkling appearance, but the sweetened water alone would give rise to but a small quantity of foam, as the gas would too easily escape. In order to prevent this some mucliaginous substance is usually added to the sirup, which renders the mass more viscous, so prevent ing the gas from escaping and produc-ing the attractive head of foam so familiar to all.

The Nose. Use the nose to breathe through and not the mouth. In winter and spring particularly must this care be taken. If the mouth is kept open large drafts of cold air rush directly in upon the lungs, chilling the body almost in-stantly. If the mouth is kept shut the air can reach the lungs only by the circuit of the nose and head, and it becomes warmed before reaching the lungs. It is asserted that the reaching the lungs. the American nose is becoming more and more narrow is owing to the reprehensive habit of breathing through the mouth rather than following the inten-

Triumphs of Modern Surgery Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one third the time required by the old treat, ment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It a'so allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Richard Gibson and W. F. Chamberlain's Stomach and Liver Tablets Better than a Doctor's

Prescription.
Mr. J. W. Turner, of Truhart, Va. says that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from the doctor. It any physician in this country was able to compound a medicine that would produce such gratifying results in cases of stomach troubles, biliousness or constipation, his whole time would be used in preparing this one medicine.
